Report from Pocklington Provincial Councillors:

DS informed the meeting about £5m investments in the East Riding. This includes £225,000 for the Francis Scaife Tone Zone; £500,000 for ERYC play parks, £1.1 support towards the community for Covid-19. The A1079 roundabout at Wilberfoss, investigations have commenced and a feasibility study. Free compost is available at the Gliding Club on the 28 September at 5 pm. Environmental Services Officers are looking into improving the litter problem at both Pocklington and Market Weighton. New bin collecting dates have been reorganised, with every ER householder issued with an identity card for using the Household Waste Recycling Centre. This is because 20% of people using the tip live outside the ER.

BE mentioned that the staff at the centre are not very helpful, DS will look into this.

Matters arising from previous meetings:

Play Park – Rospa report has been circulated, concluding that the equipment has only low risk problems. Clerk to ask R. Westmoreland to be careful strimming around the wooden supports, and BE will treat the small slide with wood preservative. Members have seen the new signs for the PP and decided on a white background. Also to confirm the equipment is for use by 12 year olds and under.

BE has emailed Nicola Moger of Traffic Management asking for data information on the speed and type of vehicles using Main Street. T. Bovingdon has submitted petitions to Highways/Traffic Management.

Flat Lane corner – correspondence confirming vehicles are still mounting the kerb. SA suggested that if vehicles did not park on the opposite side of the junction and further along, there will be more turning room for vehicles entering Flat Lane. Suggest this to Mr. Boulby.
